

HomeGlide Straight Stairlift

[Call for Pricing](#)

The HomeGlide stairlift for straight staircases satisfies the market's need for guaranteed reliability, robust quality and a swift installation without compromising on safety and all at a very competitive price.

By consulting ergonomic experts and existing stairlift owners the HomeGlide's design is simple, sturdy and above all meets your accessibility requirements.

The simplicity of HomeGlide allows the stairlift to be installed in your home very quickly. Fitted directly onto your stairs cleanly and discretely, the stairlift glides effortlessly along an aluminium track.

Following installation, we will provide you with a comprehensive demonstration to allow you to become quickly acquainted with HomeGlide's easy to operate controls. After that, your HomeGlide is completely ready to use.

Features and Benefits of the HomeGlide Stairlift:

- Innovative
- Robust
- Easy to use
- Convenient
- Cost effective
- Audible fault reporting
- Smooth finish
